### ASK US MORE ABOUT THE BENEFITS OF POWERGARD™ PROTECTION

- Provides "peace of mind" for your equipment. Customers with protection against possible large repair bills in the post-warranty period.
- Covered claims are paid directly to the dealership on behalf of the customer, with no "pre-approval" processes.
- All coverage is tied to the equipment, is fully transferable when sold or traded, and requires no fees.
- Customers with PowerGard™ Protection, and who have out of warranty failures, do not get into "special allowance" negotiations or cost sharing, thus improving the customer ownership experience.
- Remaining extended-warranty coverage when the unit is sold or traded adds value at trade-in time.
