MASTERS OF MULTITASKING.

BUILT-IN VERSATILITY

To get more productivity from your skid steer, compact track loader (CTL), compact wheel loader, or compact excavator, hook-up one of the many easy-to-use attachments. The ever-expanding lineup includes more than 100 models, so you're sure to find the right tool for the job. They're compatible with many comparable brands of machines, too. What's more, each is backed by legendary John Deere parts, service, and warranty coverage. Add an attachment, and watch your productivity instantly increase.

1. Quik-Tatch™

With the universal, self-cleaning Quik-Tatch easy-attachment system, you can go from bucket to grapple to whatever in no time flat. Quik-Tatch attachments, Quik-Tatch productivity. That's the John Deere attachment lineup.

SS CWL CTL

2. Angle-Tatch

Attaching to the Quik-Tatch coupler for attachment tilt up to 14 deg. left or right, Angle-Tatch enables buckets, blades, and other non-hydraulic attachments to rotate for more precise grading and leveling without leaving the seat of the machine.

SS Skid Steer

CEX Compact Excavator

CWL Compact Wheel Loader

Compact Track Loader

See pages 16–19 for the complete list of available attachments and vehicle compatibilities.

1. Side-Discharge Buckets

Spread sand, sawdust, or straw in livestock stalls; backfill gravel into trenches; or precisely place landscape mulch.

SS CWL CTL

2. Silage Defacers

Unique silage defacers pierce, separate, and rake without cutting or minimizing haulage or silage. Choose a reach of 7 or 11 ft. to match the task.

SS CWL CTL

3. Material/Manure Scrapers

Effortlessly push or scrape manure, mud, light snow, or other wet or sloppy materials. Rubber edges are ideal for cleanup on hard surfaces.

SS CTL

4. Scrap Grapples

Two independent-action hydraulic-powered grapples pick up and grip different-sized objects. Ample grapple opening enables large payloads.

SS CWL CTL

GET MORE DONE.

AND THEY'RE EASY TO USE

Compatible with multiple machines. Intuitive controls. Numerous configurations. Our attachments lineup offers it all. Hydraulic-driven tools such as trenchers and cold planers are available in both standard- and high-flow variations, giving you exactly what you need to get more work done — or undone. When it's productivity you want, it's a John Deere attachment you need.

SS Skid Steer

CEX Compact Excavator

CWL Compact Wheel Loader

CTL Compact Track Loader

See pages 16–19 for the complete list of available attachments and vehicle compatibilities.

1. Power Rakes

Perfect for seedbed or site prep, power rakes feature exclusive forward and backward operation. Adjustable end plates provide box-scraper-like performance.

SS CTL

2. Augers

Planetary-drive augers offer reverse rotation for quick back-outs, plus a variety of bit styles and diameters.

SS CWL CTL CEX

3. Roller Levels

Provide unobstructed visibility and total control for contouring, grading, cutting, and smoothing flat or significantly sloped terrain. Use either front or rear cutting edge or both to spread loose materials or scrap hard-pack without cutting the base.

SS CTL

4. Nursery Forks

Firmly grasp and effortlessly transport large rocks, light boulders, and balled and burlapped landscape stock up to 44 in. in diameter.

SS CWL CTL

5. High-Torque Stump Shredder

Removes stumps from 8 to 28 in. in diameter in a single pass and shreds material without the dangerous flying debris of conventional stump grinders.

SS CTL

6. Rock Grapples

High grapple forces, wide grapple capacities, and weld-in serrated cutting edges make rock grapples ideal for tasks such as land clearing, jobsite cleanup, and brush removal.

MAKE THE MOST OF YOUR INVESTMENT YEAR-ROUND.

READY IN ANY WEATHER

Don't let the weather dampen your plans. Equipped with any of these John Deere attachments, neither rain nor snow nor wind will keep you from the swift completion of your duties. What's more, these foul-weather friends will expand the year-round opportunities for your machines, helping make the most of your investment.

1. Snow Pushers

Quickly and efficiently remove large accumulations of snow from sidewalks, parking lots, and driveways. Available pullback edge is ideal for work in confined areas and around obstructions.

SS CWL CTL

2. Brooms

Angle and pickup styles are available. Heavy-duty high-torque drive motors promote long-term dependability.

SS CWL CTL

3. Snow/Utility/V-Blades

Blade angles hydraulically 30 deg. right or left. Trip springs protect vehicle from sudden impacts. Easy-to-adjust skid shoes and replaceable 0.5-in.-thick cutting edges are standard; rubber edges are available.

Trenchers SS CTL

AT HOME ON THE RANGE

...OR THE FARM OR THE JOBSITE.

The places you run your compact fleet can be pretty varied. That's why you need attachments that can meet a variety of applications. Whether you need to shape some scenery, work your spread, or clear the land, we've got the equipment to help you do all that — and more.

1. Plate Compactors

Designed for trench, slope, and excavation compaction, plate compactors are available in widths from 13 to 24 in.

CEX

2. Rotary Tillers

Rotary tillers feature rugged construction, heavy-duty tines, and a tilling depth to 6 in. Bidirectional operation increases productivity.

SS CTL

3. Dozer Blades

Durable dozer blades come standard equipped with reversible cutting edges and skid shoes for long-term durability. Power-angle-tilt lets you make adjustments on-the-go.

SS CTL

4. Steel Tracks

Self-cleaning design reduces ground pressure and helps improve traction and flotation in soft, muddy, or loose conditions. Smoothes the ride over hard ground and gravel, too.
