# NURSERY FORKS

NF44

## Specifications

- Easily and effortlessly transport balled and burlapped trees or container stock up to 1118 mm (44 in.) in diameter as well as large rocks and light boulders.
- Third-function hydraulic-actuated arm that swings open and closed works in conjunction with stationary arm to pick up a variety of objects.
- 152-mm (6 in.) tread plate allows the arms to firmly grasp root balls, nursery pots, container boxes, or landscape rocks.
- Versatile Quik-Tatch™ system enables hook-up and release in only seconds.
- Clean, simple tine design provides virtually unrestricted visibility forward and to the sides.
- Like all Worksite Pro™ attachments, these nursery forks are optimized to work with John Deere skid steers loaders (SSLs), compact track loaders (CTLs), and compact wheel loaders (CWLs). They are also compatible with many competitive models. See your local Deere dealer for details.

NF44	
Width	1194 mm (47 in.)
Height	1549 mm (61 in.)
Length	2184 mm (86 in.)
<b>Fork Opening</b>	
Minimum	102 mm (4 in.)
Maximum	1372 mm (54 in.)
Parallel	457 mm (18 in.)
<b>Maximum Root Ball</b>	1118 mm (44 in.)
<b>Connection</b>	
Hydraulic	12.7-mm (0.5 in.) quick-connect couplers
Electrical	None
<b>Vehicle Compatibility</b>	316GR, 318G, 320G, 324G, 330G, and 332G SSLs;* 317G, 325G, 331G, and 333G CTLs;* and 204L, 244L, 304L, and 324L CWLs*†

\*Ride control recommended.

†Skid steer-style coupler required.

*Pressure-Control Kit AT460780 available as a dealer-installed option reduces the risk of damage to the tree ball or container by limiting hydraulic-cylinder pressure. If caution is used when clamping objects, this kit is not required.*
